seen as a social welfare issue and subsequently a problem of ageing, abuse of the elderly, like other forms of family violence, has developed into a public health and criminal justice concern. These two fields â€" public health and criminal justice â€" have therefore dictated to a large extent how abuse of the elderly is viewed, how it is analysed, and how it is dealt with. This chapter ...

The elderly population is large in general and growing due to advancement of health care education. These people are faced with numerous physical, psychological and social role changes that challenge their sense of self and capacity to live happily. Many people experience loneliness and depression in old age, either as a result of living alone or due to lack of close family ties and reduced connections with their culture of origin,

which results in an inability to actively participate in the ...
